SUMMARY

An innovative .NET Developer with 1 year of experience in backend development, skilled in creating high-performance, scalable web applications using .NET Core and ASP.NET. Proficient in Microsoft SQL Server, Azure Cloud, and integrating third-party APIs. Adept in clean coding practices, Know in efficient database architecture, building RESTful APIs, and adhering to secure coding practices. Passionate to enhance my professional skills

SKILLS

- C#
- Core JAVA
- ASP.NET Core, RESTful Services
- Rest Api
- MS SQL Server
- My SQL
- LINQ
- Data structure
- Dapper ORM

TOOLS

- Visual Studio
- Postman,
- Swagger (Swashbuckle)
- SQL Management Studio
- Git,GitHub
- Linux Systems
- Azure DevOps Portal

EDUCATION

Bachelor of Engineering (2018-2022)

CGPA : 8.27

GOVERNMENT COLLEGE OF ENGINEERING, SALEM

ANNA UNIVERSITY

LANGUAGE

- English
- Tamil

EXPERIENCE

SOFTWARE DESIGN ENGINEER   MAY 2024 - PRESENT

CLOUDIQ SOLUTIONS PVT LTD,CHENNAI

- Developed scalable backend services with .NET Core and ASP.NET, enhancing functionality for client-facing web applications.
- Designed and optimized MS SQL Server database schema, improving data integrity and access performance.
- Developed and maintained secure RESTful APIs using ASP.NET Core, Entity Framework, and Postman, ensuring seamless client-server communication.
- Deployed services and applications on Microsoft Azure to ensure high availability and scalability.
- Implemented comprehensive unit and integration tests, improving software reliability and quality.
- Collaborated using Git for source control, ensuring clean, maintainable, and well-managed codebases.
- Participated in Agile sprints and conducted peer code reviews to uphold coding standards and best practices.
- Applied performance tuning and debugging best practices, reducing API response times and improving resource efficiency.
- Utilized GitHub Copilot to boost productivity and streamline code development through AI-assisted suggestions.

PROJECT

Project Name ; Voyager Health

Role: BackEnd Developer

Technologies: .NET 6.0, Microservices, C#, Dapper, MSSQL.

- Managed the feature flag to ensure 100% backward compatibility of the code.
- Developed efficient stored procedures for handling JSON data in SQL.
- Handled external API calls in C# using RestSharp.

SOFT SKILLS

- **Strong problem-solving**
- **Proactive and continuous learner**
- **Excellent communication and interpersonal skills**
- **Enthusiastic about leveraging modern technologies effectively**
